

TECHNICAL DATA CONTENTS

1. Classification and Characteristics of Rolling Bearings	A-5
1.1 Rolling bearing construction	A-5
1.2 Classification of rolling bearings	A-5
1.3 Characteristics of rolling bearings	A-8
2. Bearing Selection	A-12
2.1 Bearing selection flow chart	A-12
2.2 Type and characteristics	A-14
2.3 Selection of bearing arrangement	A-15
3. Load Rating and Life	A-17
3.1 Bearing life	A-17
3.2 Basic rating life and basic dynamic load rating	A-17
3.3 Adjusted rating life	A-18
3.4 Machine applications and requisite life	A-19
3.5 Basic static load rating	A-19
3.6 Allowable static equivalent load	A-20
4. Bearing Load Calculation	A-21
4.1 Loads acting on shafts	A-21
4.2 Bearing load distribution	A-23
4.3 Mean load	A-24
4.4 Equivalent load	A-25
4.5 Bearing rating life and load calculation examples	A-27
5. Boundary Dimensions and Bearing Number Codes	A-30
5.1 Boundary dimensions	A-30
5.2 Bearing numbers	A-31
6. Bearing Tolerances	A-35
6.1 Dimensional accuracy and running accuracy	A-35
6.2 Chamfer measurements and tolerance or allowable values of tapered bore	A-46
6.3 Bearing tolerance measurement methods	A-48
7. Bearing Fits	A-49
7.1 Fitting	A-49
7.2 The necessity of a proper fit	A-49
7.3 Fit selection	A-49
8. Bearing Internal Clearance and Preload	A-58
8.1 Bearing internal clearance	A-58
8.2 Internal clearance selection	A-58
8.3 Preload	A-66
9. Allowable Speed	A-70

10. Friction and Temperature Rise	A-71
10.1 Friction	A-71
10.2 Temperature rise.....	A-71
11. Lubrication	A-72
11.1 Purpose of lubrication	A-72
11.2 Lubrication methods and characteristics	A-72
11.3 Grease lubrication	A-72
11.4 Solid grease (For bearings with solid grease)	A-76
11.5 Oil lubrication	A-77
12. External bearing sealing devices	A-80
13. Bearing Materials	A-83
13.1 Raceway and rolling element materials	A-83
13.2 Cage materials.....	A-83
14. Shaft and Housing Design	A-85
14.1 Fixing of bearings	A-85
14.2 Bearing fitting dimensions.....	A-86
14.3 Shaft and housing accuracy	A-87
14.4 Allowable bearing misalignment	A-87
15. Bearing Handling	A-88
15.1 Bearing storage	A-88
15.2 Installation	A-88
15.3 Internal clearance adjustment	A-90
15.4 Post installation running test.....	A-92
15.5 Bearing disassembly	A-92
15.6 Bearing maintenance and inspection	A-94
16. Bearing Damage and Corrective Measures	A-96
17. Technical data	A-100
17.1 Deep groove ball bearing radial internal clearances and axial internal clearances	A-100
17.2 Angular contact ball bearing axial load and axial displacement	A-100
17.3 Tapered roller bearing axial load and axial displacement	A-102
17.4 Allowable axial load for ball bearings	A-102
17.5 Fitting surface pressure	A-103
17.6 Necessary press fit and pullout force	A-104
